In November 2021, SIMBIO launched the production of super premium food and treats for dogs and cats under its own Territory trademark.

The brand includes wet and dry foods, as well as native freeze-dried treats created in Russia from domestic ingredients. The formulation of TerritoryYa™ products is also Russian, it was created taking into account the needs of customers.

NUH it's a abbreviation for Natural Unique Holistic. The NUH brand got the Main Award from the most prestigious design packaging competition - Penta Awards (New York, USA).

The production line for the production of NUH canned feed was built in the city of Kurgan, Russia. This is a modern line that meets all European quality standards.

Despite the fact that canned NUH on the market for less than 1 year, they are currently successfully sold in all the largest pet store chains in Russia, as well as on the Ozon and Wildberries marketplaces.

We need Superpremium Dry Feed for cats and dogs for completing well-balance and full-fledged product portfolio.
